-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Specification***

1. The abstract of the disclosure is objected to because it exceeds the maximum length of 150 words. Correction is required. See MPEP § 608.01(b). Furthermore, the abstract should be presented as a single paragraph.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) In claim 1, and claims 2-3 by dependency, the meaning of "low molecular weight compound" is indefinite. The specification makes mention of a low molecular weight compound having a molecular weight of 100-350 at page 2; another mention of a low molecular weight compound having a molecular weight of 200-350 occurs at page 6; however, it cannot be determined whether the intended scope of "low molecular weight compound" as recited in the claims is intended to correspond to one of these stated ranges, or to another range.

(b) In claim 1, and claims 2-3 by dependency, the meaning of "recycled solvent" is indefinite in that it cannot be determined whether the intended meaning is that the solvent from a previous (unclaimed) copolymerization of cyclopentadiene and vinyl aromatic compound is re-used in the claimed copolymerization of cyclopentadiene and vinyl aromatic compound, or whether the meaning is that the solvent was previously used in an unspecified process, or whether the meaning is to set forth a step of recycling the solvent from one stage of copolymerization of cyclopentadiene and vinyl aromatic compound to a subsequent stage of copolymerization of cyclopentadiene and vinyl aromatic compound.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
